

Ethernet Cable Colour – Code Standards & Methods of Crimping

**The 8 Position 8 Contact
(8P8C)
modular plugs and jacks
are communications connectors**

**These connectors are often referred to as
RJ 45 Plugs and Jacks**

Understand the

RJ 45

Connector

Identify The Pin 1

RJ-45 Plug

Pin 1

**Clip is pointed
away from you.**

**RJ - 45
Connector**

RJ - 45 PINS

T-568A

Straight-Through Ethernet Cable

T-568B

Straight-Through Ethernet Cable

T-568A Pin Out

T-568B Pin Out

RJ-45 Crossover Ethernet Cable

Basic Theory

Cross Over Crimping

In a Nutshell

Switch the Green set of wires in place with the Orange set of wires

Provided

You Keep The Colour Coding Standards

T – 568 A

Or

T – 568 B
